2. EDUCATION

- Diploma in Electrical Engineering, University of Patras, Greece, 1982.
- Master of Science, Dept. of Electr. & Comp. Engin., University of Massachusetts at Amherst, USA, 1984.
- Ph.D. in Computer Engineering & Informatics, University of Patras, Greece, 1987.

3. EMPLOYMENT HISTORY**3.1 Present Position**

Director, Norwegian Center for Cybersecurity in Critical Sectors (NORCICS), Dept. of Information Security and Communication Technology, Norwegian University of Science and Technology, Gjøvik, Norway (2020 -)

Professor, Dept. of Information Security and Communication Technology, Norwegian University of Science and Technology, Gjøvik, Norway (2015 –)

3.2 Previous Positions

After completing my undergraduate studies, I was admitted as a graduate student to the Dept. of Electrical & Computer Engineering of the University of Massachusetts at Amherst, USA. I was also employed by the University initially as a Teaching Assistant in the Department of Electrical & Computer Engineering (September 1982- August 1983), later as a Research Assistant (March 1983 – May 1983) and then as Teaching Associate in both the Department of Electrical & Computer Engineering and the Department of Mathematics and Statistics (September 1983- February 1984), until the completion of my MSc degree in February 1984. I then returned to Greece and started my doctoral study at the University of Patras. I was also employed as an adjunct professor with the National Merchant Marine Academy in Athens (February – September 1984) and as an adjunct associate professor with the School of Technology Applications, Technological Education Institute of Patras (October 1984 - February 1987). Following the completion of my Ph.D., I moved back to Athens and served my military service with the Research Center of the Hellenic Navy (June 1987 - June 1988), while maintaining a post-doctoral researcher affiliation with the Computer Technology Institute in Patras (1988-1990). After completing my military service, I was employed by the Department of Informatics of the Technological Education Institute of Athens, initially as an adjunct associate professor (September 1988 - April 1989), then as tenured assistant professor (April 1989 – April 1991) and finally as (tenured)

associate professor (April 1991 - October 1993). During 1988 - 1990 I worked as Instructor at the Department of Computer Science, University of La Verne Athens Campus. In March 1990 I started working at the University of the Aegean, initially as adjunct assistant professor of the Department of Mathematics (March 1990 – June 1994), then as (tenured) associate professor of the Department of Mathematics (June 1994 – March 1998), professor of the Department of Mathematics (March 1998 – December 1999), and finally professor of the Department of Information and Communication Systems Engineering (December 1999- May 2007). During 1995-1997 I was also an adjunct professor with the Graduate Programme, Department of Informatics, Athens University of Economics & Business. During the time I spent with the University of the Aegean, apart from the usual academic duties, I was elected to serve as Vice-Rector of Finances & Development for two terms (March 1997 – September 2003) and as the Rector (September 2003 – September 2006). When my term as Rector finished, I was nominated by the Greek Rectors' Conference as one of the Members of the Board of the newly founded Hellenic Quality Assurance Agency for Higher Education; I remained in this position in parallel with my part-time academic duties until June 2008. In September 2006 I also took sabbatical leave to the University of Piraeus, Department of Digital Systems. In May 2007 I was invited¹ to move to the Department of Digital Systems of the University of Piraeus, as a professor. In June 2008 I was appointed by the Greek Parliament as a Member of the Board of the Hellenic Authority for Network and Information Security and Privacy (June 2008 - November 2009), retaining my full-time appointment with the University of Piraeus. In November 2009 I was appointed Secretary General for Telecommunications and Post of the Ministry of Infrastructures, Transport and Networks of the Hellenic Republic, remaining in that position partly in parallel with my academic duties until July 2012, when I resigned and returned full-time to academia. On October 1, 2015, I was appointed Professor with the Center for Cyber and Information Security, Norwegian University of Science and Technology (NTNU), Norway. In the academic years 2015-2016 and 2016-2017 I was adjunct professor of the International Hellenic University, Thessaloniki, Greece. On February 1, 2018, I was appointed Professor with the Faculty of Pure and Applied Sciences and Rector of the Open University of Cyprus, Nicosia, Cyprus and went on long term leave from my position at the University of Piraeus. In July 2020 I retired from my position at the University of Piraeus. I resigned from the Open University of Cyprus on September 30, 2020, to take up the role of the Director of the Norwegian Center for Cybersecurity in Critical Sectors, NTNU, Norway on October 1, 2020. In 2021 I was inaugurated as Professor Emeritus of the Department of Digital Systems at the University of Piraeus. In May 2024 and until June 2024 I was appointed Minister of Digital Governance in the interim (caretaking) government of the Hellenic Republic.

4. TEACHING ACTIVITIES

4.1 Courses

The first time I was assigned teaching duties was in September 1982, as a teaching assistant with the Department of Electrical and Computer Engineering, University of Massachusetts at Amherst. In the four decades since, I have designed and taught a large number of undergraduate and graduate² courses, shown in Appendix I. Many of these courses are supported by textbooks which I have authored/co-authored/edited; these textbooks are also being used as courseware of several similar courses in other Greek Universities. In the periods 1997-2007; 2009-2012; and 2018-2020 I was relieved of my course teaching assignments, being Vice-Rector and then Rector of the University of the Aegean; General Secretary of Telecommunications and Post of the Hellenic Republic; and Rector of the Open University of Cyprus respectively.

4.2 Short Courses

In 1997 I proposed and led the establishment of an “Inter-University Co-operation Programme (ICP)”, funded by the European Commission SOCRATES programme; one of the activities within the project was the design and implementation of an intensive programme of study in information and communication systems security. The programme, named “Intensive Programme on Information and Communication Security (IPICS)” was designed as a two-week intensive course, aiming at early MSc level students. The course was initially delivered in 1998 and has since being carried out annually, in summer, by teaching staff of the participating institutions; it carries four European Credit Transfer System (ECTS) credits. Institutions that have taken part in implementing the course over the years include: University of the Aegean (GR), University of Thessaloniki (GR), University of Piraeus (GR), University of

Patras (GR), Athens University of Economics & Business (GR), University of Athens (GR), Aston University (UK), University College Dublin (IR), University of Plymouth (UK), Royal Holloway College (UK), Kingston University (UK), University of Glamorgan (UK), University of Bristol (UK), University of Kent (UK), Trinity College Dublin (IR), University of Hamburg (DE), Catholic University of Leuven (BE), University of Vienna (AT), Technical University of Vienna (AT), Technical University of Graz (AT), University of Stockholm (SE), University of Lund (SE), Karlstad University (SE), University of Oulu (FI), University of Rome “La Sapienza” (IT), University of Milan (IT), Copenhagen Business School (DK), University of Essen (DE), University of Regensburg (DE), University of Malaga (ES). I have taught in this course subjects such as “Network security”, “Risk management” and “Economics of security” almost every year since 1997. More information on IPICS can be found at the IPICS 2018 site: <https://summer-schools.aegean.gr/IPICS2018>. IPICS was also implemented annually as a winter school, from 2000 to 2006, in Oulu, Finland; I also have taught the same subjects in this course in all but one of its occasions.

4.3 Curricula Design

In 1995 I led the design of a “model” graduate MSc curriculum in Information Security, Dependability and Safety, within the framework of an EU-funded ERASMUS project. In 1997 I led the design of the undergraduate curriculum of the Department of Information and Communication Systems Engineering of the University of the Aegean (https://www.icsd.aegean.gr/tmima_en). I also led the design of the graduate MSc curriculum in Information and Communication Systems Security of the Department of Information and Communication Systems Engineering of the University of the Aegean (https://www.icsd.aegean.gr/tmima_en). In 2008 I led the design of the graduate MSc curriculum in Digital Systems Security of the Department of Digital Systems of the University of Piraeus (<https://www.ds.unipi.gr/security/en/>).

4.4 Diploma, Master’s and Ph.D. Theses Supervision

a. Diploma theses supervision

I have supervised a large number of diploma theses at the University of Piraeus, the University of the Aegean, the University of Patras, the Technological Education Institute of Athens, and the Technological Education Institute of Patras on subjects in information and communication systems security, estimation theory, automatic control, signal processing, artificial intelligence, operating systems.

b. Master’s theses supervision

I have supervised to successful completion the theses of 70 MSc students of the Department of Digital Systems, University of Piraeus; of the School of Science and Technology of the International Hellenic University; and of the Department of Information Security and Communication Technology of NTNU. I have served as external examiner of the theses of five MSc students of the Department of Computer Science, University College Dublin. All of these theses were on subjects in Information and Communication Systems Security. Details can be found in Appendix II.

c. Ph.D. theses supervision

I have supervised or co-supervised³ to successful completion the theses of five Ph.D. students of the Department of Computer Engineering and Informatics, University of Patras; of one student of the Department of Mathematics, University of the Aegean; of seven students of the Department of Information and Communication Systems Engineering, University of the Aegean; of four students, of the Department of Digital Systems, University of Piraeus; and of three students of the Department of Information Security and Communication Technology, Norwegian University of Science and Technology. Ten of these persons are now University Professors in Greek or foreign Universities. I have served as external examiner of the theses of two PhD students of the School of Electrical, Electronic, and Communications Engineering, University of Plymouth, U.K.; of one student of the Department of

³ PhD theses in Greek Universities are jointly supervised by a three-member committee; one of the members is the supervisor. PhD theses in Norwegian Universities are also more often than not supervised by the main supervisor and co-supervisors. I have been a member of a very large number of PhD supervision committees and a co-supervisor of several PhD candidates at NTNU; the ones listed here are those in the supervision of which either I was the supervisor or I contributed a substantial part (more than 50%) of the overall supervision effort.

Computer Science, University of Jyväskylä, Finland (two theses); of three students of the Faculty of Engineering, The Built Environment and Information Technology, University of Pretoria, South Africa; of one student of the School of Computing, Electronics and Mathematics, Faculty of Science and Engineering, University of Plymouth, U.K.; of one student of the School of Information Sciences, University of Tampere, Finland; of one student of the Department of Computer Science, Karlstad University, Sweden; of one student of the University of Coimbra, Portugal; of one student of the Department of Computer Science, University of Oslo, Norway; of one student of the Department of Computer Science, University of Skövde, Sweden; of one student of the Department of Computer Science, University of Geneva, Switzerland; and of three students of the Dept. of Information Technology, Indian Institute of Information Technology Allahabad, India. I have also served as member of numerous examination committees of PhD theses in several Greek Universities. I am currently supervising the theses of one Ph.D. student of the Department of Digital Systems, University of Piraeus, and of three students of the Department of Information Security and Communication Technology, Norwegian University of Science and Technology. Details can be found in Appendix III.

5. RESEARCH ACTIVITIES

5.1 Research Interests

My areas of specialization and my technical and research interest lie within the fields of Information and Communication Systems Security; Adaptive Estimation and Control Theory Applications; Applications of evolutionary computing – Genetic Algorithms.

5.2 Research Contributions

I have been an active researcher in my fields of interest continuously since 1984, when I started working towards my PhD. Initially (1984-1990), my research focused exclusively on applied estimation theory and adaptive control, and in particular the extension and application of the multimodel partitioning approach to estimation and control of Lainiotis to several problem areas, including geophysical signal processing; deconvolution; computational analysis and parallel implementations of algorithms; autoregressive model identification. In 1989 I engaged in a research project on the security of information systems in Greek hospitals and started publishing in the security domain in 1990; this has been my primary field of research interest since. In this field, my research contribution extends to cyber security of critical infrastructures; cyber security of cyber physical systems; security in medical information systems; intrusion detection systems; neural network applications to computer and network security; network security; public key infrastructure; e-commerce security; security and privacy economics; e-voting systems; disaster recovery. However, applied estimation theory has also remained a research field of central interest to me; within this field I have contributed research results on radar signal processing; sonar signal processing; Riccati equations solutions; electricity demand load forecasting. In 1992 I started working with genetic algorithms, initially towards their application in automated software testing, later towards their application for active noise control actuator positioning in aircraft and then towards designing variable structure multiple model estimators.

My research activity over the past 41 years has resulted in the publication of 58 books; 48 book chapters; 123 journal publications (of which 9 invited); and 172 publications in conference proceedings (of which 30 invited). A complete list of my publications can be found in Appendix IV. According to Google Scholar, my research work has been cited 6.889 times and my h-index is 40 (March 2025). In 2023 and in 2024 I was listed in the Stanford University list of the top 2% of most cited scientists worldwide.

5.3 Research Funding

5.3.1. International R&D projects

Since 1989 my research team has participated in 47 Research & Development projects funded by the European Commission. These are highly competitive, pre-competitive research projects that are normally carried out by international consortia comprising academic, research and industrial partners. A complete list of these projects is given in Appendix V. The total budget share allocated to my team in these projects exceeds 13.500.000 €.

5.3.2 National R&D projects

Since 1984 my research team has participated in 22 Research & Development projects funded by national (Greek and Norwegian) agencies. Some of these projects required co-operation with industry. A complete list of these projects is given in Appendix VI. The total budget share allocated to my team in these projects exceeds 28.500.000 €.

5.4 Research reviews and evaluations

At the national level, I was an expert evaluator of proposals for high technology investments under Law 1262 of the Ministry of Industry, Research and Technology; I have also been member or chair of several committees for evaluating proposals for research grants as well as for reviewing the outcome of such projects and recommending acceptance or rejection. At the international level, I have been regularly evaluating research proposals, in the area of information and communication systems security, for funding by the European Commission since 1990. I have also been a reviewer⁴ for several European R&D projects in the area of information and communication systems security. I have evaluated proposals for research grants in the area of information and communication systems security on behalf of: the French Ministry of Research and New Technologies; the Technology Foundation STW Dutch funding agency for academic research; the Irish Enterprise Ireland Basic Research Programme; the Research Foundation – Flanders (FWO); the CHIST-ERA (European Coordinated Research on Long-term Challenges in Information and Communication Sciences & Technologies ERA-NET); the Canadian Mitacs Accelerate program; the Greek General Secretariat for Research and Technology; the Israel Science Foundation; the University of Luxembourg; the University of Belgrade, Serbia; the University of Skövde, Sweden; the Italian program for financing junior postdoc research proposals; and the Austrian Science Fund (FWF); .

I have served as evaluator of the research outcomes of four Professors in South African Universities, on behalf of the South African National Research Foundation, within their programme for research evaluation and rating of researchers. I have also served as evaluator of the research outcome of several Professors in Italian Universities, on behalf of the Italian National agency for the evaluation of universities and research institutes, within their “Evaluation of research quality programme”. I have evaluated the research outcome and have provided recommendations for promotion to the rank of full professor for three associate professors at two Universities in Saudi Arabia.

In 2020 I was appointed by the Ministry of Youth, Education, and Sports of the Czech Republic as a member of the international board of evaluators for evaluating research at Charles University, Prague, Czech Republic.

5.5 Editorial, reviewing and conference committee activities

I am Editor-in-Chief of the International Journal of Information Security. I am/have been a member of the editorial board for the following journals: for IET Cyber-Physical Systems: Theory & Applications; International Journal of Information Security; International Journal of Information Security Science; Computers & Security; Computer Communications Journal; Electronic Journal of e-Commerce Tools and Applications (eJETA); Information & Computer Security Journal; International Journal of Knowledge Management; IEEE Transactions on Information Technology in Biomedicine; Journal of Autonomic and Trusted Computing; International Journal on Advances in Security; Open Journal of Information Systems; International Journal of Communication Technology for Social Networks; International Journal of Psychology of Cyber Crime; International Journal of Social Computing and Cyber-Physical Systems; International Journal of Research Innovations in Information Security; Безопасность информационных технологий (IT Security); EAI Endorsed Transactions on Security and Safety; International Journal of Industrial Control Systems Security; Cybersecurity; Information; Journal of the Knowledge Economy (Chair of the Editorial Board); International Journal of Security and Its Applications (IJSIA); Journal of Innovation and Entrepreneurship (co-Chair of the Editorial Board); Journal of Cyber Forensics and Advanced Threat Investigations, Journal of Cybersecurity and Privacy; Encyclopedia of Cryptography, Security and Privacy;

⁴ R&D projects funded by the European Commission are reviewed annually by two independent reviewers who, after assessing the progress and the results of the project during the past year, make recommendations to the Commission regarding the project’s work in the coming year(s).

International Journal of Blockchain Applications and Secure Computing (IJBASC); Frontiers in Big Data, specialty section on Cybersecurity and Privacy; TransNav, the International Journal on Marine Navigation and Safety of Sea Transportation (member of the Programming Council).

I have been guest editor for the following special issues: : *Journal of Surveillance, Security and Safety*, Special Issue on Information and Communication Systems Security, 2024; *Information*, Special Issue on Information Systems, 2024; *Information*, Special Issue on Security and Privacy Approaches Against Cyber Threats: Innovations, Challenges, and Practical Solutions, 2024; *International Journal of Network Management*, Special issue on Security, Privacy and Trust Management on Decentralized Systems and Networks, 2024; *International Journal of Network Management*, Special issue on security and trust on networked systems, 2023; *Frontiers in Big Data*: Research topic: Cybersecurity and Artificial Intelligence: Advances, Challenges, Opportunities, Threats, 2023; *Sensors*, Topical Collection on “Security, Trust and Privacy in New Computing Environments”, 2022; *Journal of Surveillance, Security and Safety*, Special issue on Security of Cyber-Physical Systems, 2022; *International Journal of Electronic Governance*, Special Issue on e-Democracy, 2022; *Information*, Special Issue on Techniques and Frameworks to Detect and Mitigate Insider Attacks, 2021; *Frontiers in Communications and Networks, Section IoT and Sensor Networks*, Special Issue on Industrial Internet of Things for Future Smart Manufacturing, 2021; *Applied Sciences*, Special Issue on Novel Research and Application on Swarm Optimization and Bioinspired Optimization Algorithms, 2021; *Sensors*, Special Issue on Security, Trust and Privacy in New Computing Environments, 2020; *Sensors*, Special Issue on Security, Privacy, and Trustworthiness of Sensor Networks and Internet of Things, 2019; *International Journal of Electronic Governance*, Special Issue on e-Democracy, 2019; *Security and Communication Networks*, Special Issue on Security of Cyberphysical Systems and Industrial Control Systems and Networks, 2017; *Information*, Special issue on Trust, Privacy and Security in Digital Business, 2017; *Frontiers in Psychology*, Special issue on Mastering Cyberpower: Cognitive Sciences and The Human Factor in Civilian and Military Cyber Security, 2017; *IEEE Computer*, Special Issue on Security Risk Assessment, 2017; *International Journal of Electronic Governance*, Special Issue on e-Democracy, 2017; *Computer Communications*, Special Issue on Emerging Middleware for Next Generation Networks, 2007; *Computer Communications*, Special Issue on Public Key Infrastructures for Secure Computer Communications, 2004; *Information Management & Computer Security*, Special Issue on Security Issues of IT Outsourcing, 2006;

and a reviewer for the following journals: IEEE Transactions on Signal Processing; Signal Processing Journal; Computer Communications Journal; Computers & Security; IEE Proceedings; The Computer Journal; Electronics Letters; Future Generation Computer Systems; IET Science, Measurement and Technology; IEEE Transactions on Information Forensics and Security; IEEE Transactions on Dependable and Secure Computing; Journal of Computer Engineering & Information Technology; Digital Signal Processing; International Journal of Electronic Governance; Journal of Network and Computer Applications; International Journal of Electronic Government; Chaos, Soliton & Fractals; Computer Science Review; Computer Standards & Interfaces; Engineering Applications of Artificial Intelligence; Information & Management; Pattern Recognition Letters; Sustainability; Journal of Medical Imaging; Journal of Information Security and Applications; Automatika; IEEE Transactions on Industrial Informatics; IEEE Transactions on Industrial Electronics; Sensors; Information; Applied Sciences.

Since 1991 I have served on the technical programme and/or organization and/or steering committees as a member or chair for more than 940 scientific conferences. I am a member of the Steering Committee of the ESORICS Conference (chair 2017-2023) and of several other international Conferences and Workshops. A complete list can be found in Appendix VII.

5.5 Invited lectures

Over the years I have delivered a large number of invited lectures within the context of postgraduate courses in Greek Universities and in international conferences. Those of the latter that have been included in the conference proceedings are listed in Appendix IV. An indicative list of invited/keynote lectures I gave over the past years is given in Appendix VIII.

7. ACADEMIC NETWORKING ACTIVITIES

Apart from academic networking achieved through my research engagement in international R&D consortia, since 1987 I have participated in or led several international and national academic networking activities, all of which were funded either by the European Commission (international) or the General Secretariat for Research and Technology (national). These are shown in Appendix IX.

8. CONSULTANCY

8.1 Consultancy to industry

My consulting activities to industry were mostly in the form of projects granted to and carried out by my research team. Most of them pertain to carrying out risk assessment and management exercises for information systems and installations using the CRAMM ® method and subsequently proposing appropriate security plans. Since 1997 I have concluded consultancy projects worth totally over 1.700.000 €. A complete list can be found in Appendix X.

8.2 Consultancy to government

I have been providing consultancy services to the Greek government since 1990. Initially, this was mostly in the form of membership or chairing of committees for technically and financially evaluating bids for the development or procurement of medium to large scale information systems to be used in government agencies such as: Hellenic Parliament, Ministry of Merchant Marine, Ministry of Health, Ministry of Labor, Ministry of Development, Ministry of the Interior and Public Administration, Ministry of Education. Later, around 2000, I started being appointed as chair or member of strategic planning committees, such as: Chair, Division of Transportation and Vehicle Technical Control, Immediate Action Group, Ministry of the Interior, Public Administration and Decentralization (2000-2001); Chair, Strategic Committee for ICT in Healthcare and Welfare, Ministry of Health and Welfare (2000-2002); Member, Strategic Committee for the Information Society, Ministry of National Education and Religious Affairs (2001- 2004); Member, Monitoring Committee of the “POLITEIA” Programme, Ministry of National Education and Religious Affairs (2001-2004); Member, Scientific Advisory Committee, Greek Research Network S.A. (2000-2007); Member, Strategic Committee for the Information Society, General Secretariat for Social Security (2000-2004); Chair, Strategic Committee for the Information Society, Ministry of Justice (2002-2004); Chair, Advisory Technical Council, Ministry of Administrative Reform & Electronic Government (2011-2012); President, Council of Higher University Education (2013-2014); President, National Council of Education (2013-2015).

8.3 Standardization

I was member of the team that prepared, under contract, the CEN ENV 12924:1997 “Medical Informatics – Security categorization and protection in healthcare information systems” international standard.

9. LEADERSHIP & MANAGEMENT

9.1 Academic

In March 1997 I was elected⁵ Vice-Rector for Finances and Development of the University of the Aegean, Greece. I was re-elected in the position in May 2000. In this capacity, I was responsible for all matters pertaining to the formulation, monitoring and execution of the budget of the University and to its strategic development. The University of the Aegean in 1997 comprised seven academic departments, offering undergraduate programmes of study and doctoral studies; in 2000 the University comprised seventeen departments, offering undergraduate, graduate (MSc) and doctoral studies.

In May 2003 I was elected Rector of the University of the Aegean. In the Greek –and European- University system, the Rector is both the institutional leader and manager at the same time. In 2005, the University of the Aegean was

⁵ Until 2011, the Rector and the two Vice-Rectors of each Greek University were elected by an electoral body comprising all the faculty members of the University, student representatives and representatives of the administrative personnel.

evaluated within the Institutional Evaluation Programme of the European University Association⁶; the result of this evaluation, which includes the institutional leadership and management can be found at https://www.aegean.gr/sites/default/files/attach/16/10/eua_institutional_evaluation_report_website.pdf. The pertinent extract of the report can be found in Appendix XI.

During my terms as Vice-Rector and Rector of the University of the Aegean, Greek Universities had access to European funds administered through the Ministry of Education; these funds aimed at developing and enhancing the tertiary education in Greece. The University of the Aegean showed excellent performance in attracting and managing such funds that were administered in the form of large grants approved through a strictly competitive process within the Operational Programme for Education and Initial Professional Training (EPEAEK). Among these projects, I was personally involved in the preparation of and managed those shown in Appendix XII.⁷ The budget of all these projects exceeds 10.000.000 €.

In 2000 I was appointed as one of the three members of the then founded Finances Committee of the Greek Rectors' Conference, a capacity that I retained until 2006. The Committee had responsibility for liaising between the Conference and the government on all matters pertaining to the finances of all Universities, including the strategic planning of the national and European funds made available to Universities.

I have also served in other academic management capacities: Founder and Director, MSc Programme in "Techno-economic management and security of digital systems", Dept. of Digital Systems, University of Piraeus (2009); Acting Head, Dept. of Statistics and Actuarial-Financial Mathematics, University of the Aegean (2003-2006); Founder and Head, Dept. of Information and Communication Systems Engineering, University of the Aegean (1997-1998) and (2000); Associate Head, Dept. of Information and Communication Systems Engineering, University of the Aegean (1998-2000); Acting Head, Dept. of Geography, University of the Aegean (1997-1999); Associate Head, Dept. of Mathematics, University of the Aegean (1997); Head, Division of Analysis, Dept. of Informatics, TEI of Athens (1990-1991).

In December 2017, following an international call, I was offered the position of Professor and Rector of the Open University of Cyprus, Nicosia, Cyprus. I took up the post on February 1, 2018, and resigned on 30 September 2020 to take up the post of Director, Norwegian Center for Cybersecurity in Critical Sectors (NORCICS).

In May 2024 I was elected Member of the Board of the University of Patras, Greece.

9.2 Research

At the national level, during 1997-2003, while being Vice-Rector for Finances and Development, University of the Aegean, I was ex-officio serving as the Chairman of the University Research Committee. The Committee has full responsibility and authority in Greek Universities on all matters pertaining to research, from research strategy formulation to monitoring progress against research plans, to administering research contracts, to formulating, monitoring and executing the research budget etc.

In 1998 I founded the Research Laboratory on Information and Communication Systems Security (InfoSec Lab)⁸, within the Department of Information and Communication Systems Engineering, University of the Aegean, which I directed until 2005. The Laboratory was the first and is still the largest academic research unit on Information and Communication Systems Security in Greece. In 2008 I founded the Systems Security Laboratory (SSL)⁹ within the Department of Digital Systems of the University of Piraeus, which is now the second largest academic research unit on Information and Communication Systems Security in Greece.

At the international level, in 2004 I was appointed by the Secretary General of Research and Technology as one of Greece's national experts on horizontal issues pertaining to the whole 1st special programme and to special activities

within the 6th Framework Programme on R&D of the European Union; this position I retained until the end of FP6 in 2007. In 2007 I was appointed, again by the Secretary General of Research and Technology as Greece's national representative to the management committee of the "People" Programme¹⁰, within the 7th Framework Programme on R&D of the European Union. In 2016 I was invited to become a member of the 8-member International Scientific Council of the newly founded Institute of Cyber Intelligence Systems of the National Research Nuclear University MePhI (Moscow Engineering Physics Institute - <https://mephi.ru/eng/>), Russia. In 2018 I was invited to become a member of the Scientific Council of the Institute for Privacy Law, Data Protection and Technology of the European Public Law Organization (<https://www1.eplo.int/ipl>). In 2022 I was invited to join the [Board of International Experts](#) of the [International Center for AI and Cyber Security Research and Innovations](#) at Asia University, Taiwan. In 2024 I was invited to join the Scientific Committee of the Hellenic Society of Bioethics, Greece (<https://hsbioethics.org/en/>).

I have been leading the Critical Infrastructure Security and Resilience Research Group (<https://www.ntnu.edu/iik/cisar>) of the Center of Cyber and Information Security (CCIS) (<https://www.ntnu.edu/ccis/center-for-cyber-and-information-security>), hosted by the Dept. of Information Security and Communication Technology, Norwegian University of Science and Technology, Gjøvik, Norway since 2015 and I sit on the Scientific Board of CCIS since 2016. I was Acting Scientific Director of CCIS between January-March and October-December 2017.

In 2019 I led the submission of a joint academia-industry-research centers proposal for establishing a Center for Research-Based Innovation (Senter for Forskningsdrevet Innovasjon – SFI), named *Norwegian Center for Cybersecurity in Critical Sectors (NORCICS)*. The proposal was accepted and NORCICS became officially operational on October 1, 2020. I serve as the NORCICS Director (<https://www.ntnu.edu/norcics>) since.

9.3 Government

In September 2006, following a nomination by the Greek Rectors' Conference, I was appointed as one of the Members of the Board of the newly founded Hellenic Quality Assurance Agency for Higher Education (now Hellenic Quality Assurance and Accreditation Agency)¹¹. The Agency is an independent administrative authority; its mission is to support Higher Education Institutions in implementing procedures aiming at assuring and enhancing quality; to ensure the transparency of the pertinent procedures; to foster research in related fields; and to inform the State and the HEIs on the current international developments and trends in this field. I remained in this position until June 2008, when I resigned, because I was appointed as a member of the Board of another Authority.

In June 2008 I was appointed by the Greek Parliament as a member of the Board of the Hellenic Authority for Communication Security and Privacy (ADAE)¹². ADAE is an independent authority that has been granted self-governing independence; it has been established according to article 19 par. 2 of the Hellenic Constitution. Its mission is to ensure that the protection of the security and privacy of any form of communication, including the postal service is maintained. I remained in this position until November 2009, when I resigned, because I took over another government post.

In November 2009, following an open contest, I was appointed jointly by the Prime Minister and the Minister of Infrastructures, Transport and Networks as the Secretary General of Communications (now Telecommunications and Post) of the Greek government. Secretaries General in the Greek government serve a liaison role between a Ministry's political leadership (Minister, Vice-Ministers, Deputy Ministers) and the administration. While in this post, where I remained until July 2012 when I resigned, because of the change in government following elections, I had responsibility and authority in all matters pertaining to the telecommunications and post in the country, including political supervision of the telecommunications and post regulatory authority; liaison -at the political level- with the European Network and Information Security Agency (ENISA)¹³; and political supervision of the Hellenic Post S.A. I was reporting directly to the Deputy Minister of Infrastructures, Transport and Networks until June 2010 and to the Minister of Infrastructures, Transport and Networks thereof. In April 2011 I was appointed as one of the five members

¹³ <http://www.enisa.europa.eu/>

of the Committee on Information and Communication Technologies of the Greek government, with responsibility and authority over all matters pertaining to ICT in the country; the committee was reporting directly to the Prime Minister.

In May 2013 I was appointed, following a hearing in the Hellenic Parliament, as the President of the National Council of Education, for a three-year term. The Council was the supreme advisory body to the Minister of Education with competence on all three levels of education, namely primary, secondary and higher education and all matters related to education. In the period June 2013-June 2014 I also served as the President of the Council for Higher University Education, which was one of the constituents of the National Council of Education, with similar competences to those of the National Council of Education, albeit focused on Higher University Education.

9.4 Professional organizations

I was elected as a member of the Board of the Greek Computer Society in 1994-1997 and as the Vice-President during 1996-1997. I was elected as Member of the Board and Vice-President of the Panhellenic Federation of Associations of University Professors for 2009. I served as a member of the Board of the Information and Communication Technologies chapter of the Technical Chamber of Greece. I was Chairman of Working Group 4 (Network Security) of Technical Committee 11 (IT Security) of IFIP in 1996-1999; and the national representative of Greece to IFIP's general assembly from 1997 until 2007. In October 2012 I was elected President of the Hellenic chapter of the Association for Information Systems.

9.5 Other

During 1996-1997 I was a member of the Technical Council of the University of the Aegean. The Technical Council comprises only engineers as members and it is an Advisory Board to the University management on all matters pertaining to technical works. I chaired this council during 1997-2003. During 2003-2006, being the Rector of the University of the Aegean, I was ex-officio the Chairman of the Board of the Company for Managing and Exploiting the Property of the University of the Aegean S.A. The company acts as a manager of all the real estate property of the University.

Since 2017 I am the representative of Norway to the Steering Committee of the European Cyber Security Challenge (ECSC). In June 2023 I was elected as chair of the Executive Committee of the ECSC.

Since 2024 I am a member of the strategy council of the Network for Transformation in Greece and Europe.

10. INSTITUTIONAL AND STUDY PROGRAM EVALUATIONS

I have carried out, individually or as a member of a team, several evaluations of individual study programmes, both undergraduate and graduate, offered by Universities in Greece, Cyprus, Estonia, Lithuania and Latvia.

I have carried out, as a member of a team, evaluations of the doctoral study programs of two Romanian Universities.

I was member of an international team that evaluated the research performance of Charles University, Prague, Czech Republic, in 2020 - 2021.

At the international level, in 2006 I was invited to join the pool of expert evaluators of the Institutional Evaluation Programme of the European University Association (<https://www.iep-qaa.org/>). Membership is by invitation only and can be extended only to current or former Rectors and Vice-Rectors. In 2008 I was "promoted" to evaluation team chair and between 2011 and 2019 I was sitting on the Programme Steering Committee. I served as the Chair of the Programme Steering Committee between 2015 and 2019. Within the EUA IEP framework I have evaluated more than 20 higher education institutions in Slovakia, Portugal, Turkey, Romania, Ireland, Montenegro, Lebanon, FYROM, the Czech Republic, and Poland. Since November 2014 I have been an ENQA evaluator.

I have chaired the evaluation teams for four institutional evaluations of Universities in Georgia, organized by the National Center For Educational Quality Enhancement.

11. SCHOLARSHIPS, AWARDS, DISTINCTIONS

- Recipient of the University of the Aegean gold medal, awarded by the University Senate “for his decisive contribution to addressing significant matters related to the organization and operation of the University of the Aegean IT services”.
- Listed in the Stanford University list of the top 2% most cited scientists worldwide in 2024.
- Listed in the Stanford University list of the top 2% most cited scientists worldwide in 2023.
- Professor Emeritus, Department of Digital Systems, University of Piraeus, 2021.
- European Alliance for Innovation (EAI) Distinguished Member, 2021.
- Doctor Honoris Causa (Honorary doctorate), Department of Production and Management Engineering, Democritus University of Thrace, Greece, May 2019.
- Outstanding Reviewer, Information & Computer Security Journal, 2018.
- Outstanding Reviewer, Information & Computer Security Journal, 2016.
- Infocom Award for outstanding achievements (contribution to the development of the telecommunications sector in Greece), 2012.
- Outstanding Reviewer, Information Management & Computer Security Journal, 2010.
- Outstanding Reviewer, Information Management & Computer Security Journal, 2009.

APPENDIX I: Courses that I have designed and taught

- “Marine electronic instruments”, undergraduate course, Merchant Marine Academy, 1984.
- “Computer Programming”, undergraduate course, School of Technology Applications, Technological Education Institute of Patras, 1984 – 1987
- “Programming in Pascal”, undergraduate course, Dept. of Computer Engineering & Informatics, University of Patras, 1985 – 1987.
- “Programming in FORTRAN”, undergraduate course, Dept. of Computer Engineering & Informatics, University of Patras, 1985 – 1987.
- “Programming in FORTRAN Lab”, undergraduate course, Dept. of Informatics, Technological Education Institute of Athens, 1988 – 1993.
- “Programming in PROLOG”, undergraduate course, Dept. of Informatics, Technological Education Institute of Athens, 1988 – 1993.
- “Microprocessors Lab”, undergraduate course, Dept. of Informatics, Technological Education Institute of Athens, 1988 – 1993.
- “Operating Systems”, undergraduate course, Dept. of Informatics, Technological Education Institute of Athens, 1988 – 1993.
- “Programming in Pascal”, undergraduate course, University of La Verne, Athens Campus, Computer Science Department, 1988-1990.
- “Artificial Intelligence - Programming in PROLOG”, undergraduate course, Dept. of Mathematics, University of the Aegean, 1990-1997.
- “Numerical analysis - Programming in FORTRAN”, undergraduate course, Dept. of Mathematics, University of the Aegean, 1990-1997.
- “Algorithms”, undergraduate course, Dept. of Mathematics, University of the Aegean, 1990-1997.
- “Data structures”, undergraduate course, Dept. of Mathematics, University of the Aegean, 1990-1997.
- “Digital signal processing”, undergraduate course, Dept. of Mathematics, University of the Aegean, 1990-1997.
- “Estimation theory”, undergraduate course, Dept. of Mathematics, University of the Aegean, 1990-1997.
- “Control theory”, undergraduate course, Dept. of Mathematics, University of the Aegean, 1990-1997.
- “Operating systems”, undergraduate course, Dept. of Mathematics, University of the Aegean, 1990-1997.
- “Security policies and security management”, undergraduate course, Dept. of Digital Systems, University of Piraeus, 2007-2009 and 2012-2017.
- “Information systems security”, undergraduate course, Dept. of Digital Systems, University of Piraeus, 2007-2009 and 2012-2017.
- “Information systems security”, MSc graduate course, Dept. of Informatics, Athens University of Economics & Business, 1995-1997.
- “Network security”, MSc graduate course, Dept. of Digital Systems, University of Piraeus, 2007-2009.
- “Special subjects in Information & Communication Systems Security I”, MSc graduate course, Dept. of Digital Systems, University of Piraeus, 2009-2013.
- “Special subjects in Information & Communication Systems Security II”, MSc graduate course, Dept. of Digital Systems, University of Piraeus, 2009-2013.
- “Information security management”, MSc graduate course, Dept. of Digital Systems, University of Piraeus, 2013-2018.
- “Advanced security technologies”, MSc graduate course, Dept. of Digital Systems, University of Piraeus, 2013-2018.
- “Critical Infrastructure Security and Resilience”, MSc graduate course, Dept. of Information Security and Communication Technology, Norwegian University of Science and Technology, 2017-.
- “Cyber Physical systems Security”, PhD course, Dept. of Information Security and Communication Technology, Norwegian University of Science and Technology, 2022-.
- “Information Security”, EVU (Continuing Education) course, Dept. of Information Security and Communication Technology, Norwegian University of Science and Technology, 2022-.

APPENDIX V: International R&D projects

1. “ATHENA: Advanced validation and testing environment for enhancing the EU HW and SW vulnerabilities assessment and security based on innovative AI services”, HORIZON-IA Project, within the HORIZON Europe Programme, funded by the European Commission, 2025 – 2028. Team budget: 558.125 €.
2. “SECASSURED: Security Assurance-driven AI-based Security Services for Trustworthy Security Engineering from Left-to-Right”, HORIZON-IA Project, within the HORIZON Europe Programme, funded by the European Commission, 2025 – 2028. Team budget: 339.562,50 €
3. “BIFROST: Bridging innovation frameworks and research operations in security technologies - NCC-NO 2.0”, DIGITAL-SIMPLE Project, within the Digital Europe Programme, funded by the European Commission, 2025 – 2029. Team budget: 668.001 €.
4. “CPAID: Cloud-based Platform-agnostic Adversarial AI Defence framework”, HORIZON-RIA Project, within the HORIZON Europe Programme, funded by the European Commission, 2024 – 2027. Team budget: 388.250,00 €.
5. “CRESCENDO: Cyber preparedness and RESilientCe of the Energy sector in the NorDic region”, DIGITAL-JUGFS project, within the Digital Europe Programme, funded by the European Commission, 2024-2028, Team budget: 509.641,00 €.
6. “CYCLE: CYberseCurityLEarning: Master’s degree in Cybersecurity”, Capacity building in the field of higher education Project, within the ERASMUS+ Programme, funded by the European Commission, 2023 – 2026. Team budget: 113.265,00 €.
7. “COMFORTAGE: Prediction, Monitoring and Personalized Recommendations for Prevention and Relief of Dementia and Frailty”, HORIZON-RIA Project, within the HORIZON Europe Programme, funded by the European Commission, 2023 – 2027. Team budget: 524.977,50 €.
8. “NEWSROOM: Adapting Cyber Awareness for Evolving Computing Environments”, EDF-RA (EDF Research Actions) Project, within the EDF Programme, funded by the European Commission, 2023 – 2026. Team budget: 745.187,50 €.
9. “FACT: Federated Advanced Cyber physical Test range”, EDF-DA (EDF Development Actions) Project, within the EDF Programme, funded by the European Commission, 2023 – 2026. Team budget: 1.470.931,59 €.
10. “CYBERUNITY: Community for Integrating and Opening Cyber Range Infrastructures that Build an Interoperable Cross-Domain and Cross-Sector Cyber Range Federation”, DIGITAL JU SME Support Actions Project, within the Digital Europe Programme, funded by the European Commission, 2023-2026, Team budget: 879.647 €.
11. “NCC-NO: National Coordination Centre on Cybersecurity – Norway”, DIGITAL JU Simple Grants Project, within the Digital Europe Programme, funded by the European Commission, 2023-2025, Team budget: 552.013 €.
12. “CERTIFAI: Agile conformance assessment for cybersecurity CERTIFication enhanced by Artificial Intelligence”, R&D project within the HORIZON Europe Programme, funded by the European Commission, 2023-2026, Team budget: 448.125 €.
13. “ENFIELD: European Lighthouse to Manifest Trustworthy and Green AI”, R&D project within the HORIZON Europe Programme, funded by the European Commission, 2023-2026, Team budget: 3.178.000 €.
14. “Building Interoperable EU Risk Management Frameworks vol.2”, supporting services project, funded by ENISA, 2022, Team budget: 60.000 €.
15. “Interoperable EU Risk Management Framework”, supporting services project, funded by ENISA, 2021, Team budget: 49.890 €.
16. “ELECTRON: rEsilient and seLf-healed EleCTRical pOwer Nanogrid”, R&D project within the HORIZON2020 Programme, funded by the European Commission, 2021-2024, Team budget: 301.875 €.
17. “Cyber Clever: Integration of cyber security in initial VET-education”, Cooperation for innovation and the exchange of good practices Project, within the ERASMUS+ Programme, funded by the European Commission, 2020 – 2023. Team budget: 17.161 €.
18. “CyberSec4Europe: Cyber Security Network of Competence Centres for Europe”, R&D project within the HORIZON2020 Programme, funded by the European Commission, 2019-2022, Team budget: 323.645 €.
19. “SDN-microSENSE: SDN - microgrid reSilient Electrical eNergy SystEm”, R&D project within the HORIZON2020 Programme, funded by the European Commission, 2019-2022, Team budget: 443.000 €.
20. “LOCARD: Lawful evidence collecting and continuity platform development”, R&D project within the HORIZON2020 Programme, funded by the European Commission, 2019-2022, Team budget: 350.000 €.

21. “DELTA: Future tamper-proof Demand rEsponse framework through seLf-configured, selfoPtimized and collAborative virtual distributed energy nodes”, R&D project within the HORIZON2020 Programme, funded by the European Commission, 2018-2021, Team budget: 359.625 €.
22. “GHOST: Safe-Guarding Home IoT Environments with Personalised Real-time Risk Control”, R&D project within the HORIZON2020 Programme, funded by the European Commission, 2017-2020, Team budget: 585.000 €.
23. “SECTECH: Innovation and Excellence in Cyber-security teaching in Higher Education”, Erasmus+ project, funded by the European Commission, 2016-2018, Team budget: 30.000 €.
24. “SPIDER: Spam over Internet Telephony Detection Service”, R&D project within the CRAFT Programme, funded by the European Commission, 2006-2008, Team budget: 250.000 €.
25. “SERENITY: System Engineering for Security and Dependability”, R&D project within the Information Society Technologies Programme, funded by the European Commission, 2006-2008, Team budget: 372.000 €.
26. “DAMES-T: Development of an Agent-Mediated secure e-commerce System for Tourism domain”, The Greek General Secretariat for Research and Technology (GSRT) – The Scientific and Technical Research Council of Turkey (TUBITAK) Joint Research and Development Project, 2003 – 2004, Team budget: 15.400 €
27. “ICTE-PAN: Methodologies and Tools for Building Intelligent Collaboration and Transaction Environments in Public Administration Networks”, Information Society Technologies STREP, 2001-2004, Team Budget: 204.600 €.
28. “e-VOTE: An Internet Based electronic voting system”, R&D project within the Information Society Technologies Programme, funded by the European Commission, 2001-2004, Team Budget: 523.200 €.
29. Study on the scalability of certificate revocation and certificate suspension and proposals for enhancements on the respective mechanisms, study funded by the European Commission on behalf of the European Electronic Signature Standardisation Initiative (EESSI), 2000-2001, Team Budget: 26.400 €.
30. “VITAL-HOME: Vital Signals Monitoring from Home with Open Systems”, R&D project within the Standardisation in the Information Society Programme, funded by the European Commission, 1999-2000, Team budget: 22.000 €.
31. “ERMIS: Enhanced Regional Multimedia Internet Services in the Aegean Archipelago”, R&D project within the ACTION-2 Programme, funded by the European Commission DG XVI, 1998-2000, Team budget: 38.900 €.
32. “KEYSTONE: European Cross Domain PKI Architecture”, R&D project within the ETS-II Programme, funded by the European Commission DG XIII, 1998, Team budget: 20.800 €.
33. “COSACC: Coordination of Security Activities Among Chambers of Commerce”, R&D project within the Telematics for Administrations Programme, funded by the European Commission DG XIII, 1998-2000, Team budget: 107.500 €.
34. “MEDSEC: Health Care Security and Privacy Standards in the Information Society”, R&D project within the Standardisation in the Information Society Programme, funded by the European Commission DG III, 1997-1998, Team Budget: 95.900 €.
35. “EPIC: Exchanging Process Improvement Experiences across SME's by Conferencing on the Internet”, R&D project within the ESPRIT (EESSI) programme, funded by the European Commission DG III, 1997-1998, Team budget: 8.500 €.
36. “EUROMED-ETS: Trusted Third Party Services for Healthcare in Europe”, R&D project within the INFOSEC Programme, funded by the European Commission DG XIII, 1997, Team Budget: 85.000 €.
37. “SECURENET: An Intelligent System for Detecting and Preventing Attacks in Open Networks”, R&D project within the INNOVATION Programme, funded by the European Commission DG XIII, 1996.
38. “ISHTAR: Implementing Secure Healthcare Telematics Applications in Europe”, R&D project within the Healthcare Telematics Programme, funded by the European Commission DG XIII, 1995-1998, Team Budget: 79.500 €.
39. “THIS: Trusted Health Information Systems”, R&D project within the INFOSEC Programme, funded by the European Commission DG XIII, 1996, Team Budget: 22.900 €.
40. “SECURENET II: An Intelligent System for Detecting and Preventing Attacks in Open Networks”, R&D project within the RACE Programme, funded by the European Commission DG XIII, 1994-1995, Team Budget: 103.800 €.
41. “Security Categorisation and Protection in Health Care Information Systems”, standardisation project (251-PT-012), funded by the European Commission via CEN (Committe Europeenne de Normalisation), 1994, Team Budget: 35.200 €.
42. “ASE: Auctions by Satellite in Europe”, R&D project within the INFOSEC Programme, funded by the European Commission DG XIII, 1994, Team Budget: 11.700 €.

43. "LLSM: Local Loop Security and its Management", R&D project within the INFOSEC Programme, funded by the European Commission DG XIII, 1993, Team Budget: 13.200 €.
44. "SEISMED: Secure Environment for Information Systems in Medicine", R&D project within the AIM Programme, funded by the European Commission DG XIII, 1991-1994, Team Budget: 139.600 €.
45. "SECURENET: Expert Systems and Neural Networks for Secure Computer Networks", R&D project within the RACE Programme, funded by the European Commission DG XIII, 1992, Team Budget: 12.300 €.
46. "ASANCA: Advanced Systems for Active Noise Control in Aircraft", R&D project within the BRITE II Programme, funded by the European Commission DG XII, 1990-1992.
47. "MARIE: Mobile Autonomous Robot for Industrial Environments", R&D project within the ESPRIT II Programme, funded by the European Commission DG XIII, 1989-1992.
48. "FOCUS: Front ends for Open and Closed User Systems", R&D project within the ESPRIT II Programme, funded by the European Commission DG XIII, 1989-1992.
49. "MMOMS: Multi-Modal Organ Modelling System", R&D project within the AIM Programme, funded by the European Commission DG XIII, 1989-1990.
50. "AEMI: Advanced Environment for Medical Images", R&D project within the AIM Programme, funded by the European Commission DG XIII, 1989-1990.

APPENDIX VI: National R&D projects

1. “CORESIM: Context-Based Real-Time OT-IT Systems Integrity Management”, Collaborative and Knowledge-building Project Knowledge-building Project, funded by the Research Council of Norway, 2023-2026, Budget: 15.000.000 NOK
2. “Digitalisation of the process industry”, Development of a pilot training program, funded by Kompetanse Norge, 2022-2023, Budget: 994.010 NOK
3. “Advancing Cyber Defence by Improved Communication of Recognized Cyber Threat Situations (ACDICOM)”, Researcher Project – SAMRISK, funded by the Research Council of Norway, 2020-2023, Budget: 10.135.000 NOK
4. “Powergrid - Digitalization of short-term resource allocation in power markets”, Collaborative and Knowledge-building Project, funded by the Research Council of Norway, 2021-2024, Budget: 12.570.000 NOK
5. “Roadmap with procedures for security when the industry digitizes”, Project funded by Norsk Industri, 2020-2021, Budget: 500.000 NOK
6. “CIRMAN - Circular Manufacturing research and educational collaboration with India and Japan”, INTPART project, funded by the Research Council of Norway, 2021-2026, Budget: 12.500.000 NOK
7. “NORCICS – Norwegian Center for Cybersecurity in Critical Sectors”, SFI, funded by the Research Council of Norway, 2020-2028, Budget: 215.000.000 NOK.
8. “CybWin: Cybersecurity Platform for Assessment and Training for Critical Infrastructures – Legacy to Digital Twin (CybWin)”, Research project within the IKTPluss programme, funded by the Research Council of Norway, 2018-2022, Team Budget: 6.400.000 NOK.
9. “MarCy: Maritime Cyber Resilience”, Knowledge-building Project for Industry – MAROFF, funded by the Research Council of Norway, 2019-2023, Team Budget: 4.582.000 NOK.
10. “CPSEC: Cyber-Physical Security in Energy Infrastructure of Smart Cities”, Research project within the IKTPluss programme, funded by the Research Council of Norway, 2018-2021, Team Budget: 13.982.000 NOK.
11. “SPAGOS: Secure, privacy-aware e-government services”, Co-operation programme project, funded by the General Secretariat for Research & Technology, 2013-2015, Team Budget: 260.000 €.
12. “MOBI-MUL-SEC: AAA access mechanisms between heterogeneous network sectors and security of mobile multimedia services based on content, in heterogeneous IP networks”, Enhancement of the Research Potential Programme (PENED) project, funded by the General Secretariat for Research & Technology, 2006-2007, Team Budget: 100.000 €.
13. “Integrating security patterns in software development”, Operational Programme for Education and Initial Professional Training (EPEAEK) “Pythagoras” project, funded by the Ministry of Education, 2004-2006, Team Budget: 62.000 €.
14. “Secure electronic financial transactions for tourism using mobile communications and the internet”, Fostering Demonstration and Innovation Projects Programme (PEPER) project, funded by the General Secretariat for Research & Technology, 2002, Team Budget: 47.000 €
15. “Timestamping system for secure electronic transactions”, Development of Industrial Research and Technology Programme (PAVET) project, funded by the General Secretariat for Research & Technology, 2001-2002, Team Budget: 17.600 €.
16. “Telematics applications for Eastern Macedonia, Thrace, and North Aegean administration authorities”, Research Consortia for Improving Competitiveness Programme (EKBAN) project, funded by the General Secretariat for Research & Technology, 1996-1997, Team Budget: 57.500 €.
17. “Genetic algorithms for adaptive estimation and control”, Enhancement of the Research Potential Programme (PENED) project, funded by the General Secretariat for Research & Technology, 1996-1997, Team Budget: 23.500 €.
18. “Study of immigrant Greeks in the USSR”, funded by the General Secretariat for Greeks abroad, 1991-1992, Team Budget: 21.300 €.
19. “Study of immigrant Greeks in the USA, Canada, Australia and New Zealand”, General Secretariat for Greeks abroad, 1991-1992, Team Budget: 42.500 €.
20. “Ship automation”, Enhancement of the Research Potential Programme (PENED) project, funded by the General Secretariat for Research & Technology, 1988-1990, Team budget: 23.500 €.
21. “Security of health information and protection of privacy in the national health system”, funded by the Ministry of Health, Welfare and Social Security, 1989-1990, Team Budget: 23.500 €.
22. “Optimal algorithms for geophysical data processing”, PAET project, funded by the General Secretariat for Research & Technology, 1984-1986, Team budget: 23.500 €.

APPENDIX VII: Participation in conference committees

1. Member, IFNA Board of Global Advisors, International Federation of Nonlinear Analysis.
2. Member, Steering Committee, IFIP Communications and Multimedia Security Conferences (CMS).
3. Chair, Steering Committee, European Symposium on Research in Information and Communication Security (ESORICS) Conferences
4. Member, Steering Committee, EUROPKI Conferences.
5. Member, Steering Committee, International Security Conferences.
6. Member, Advisory Board, Information Security Colloquium.
7. Member, Steering Committee, International conference on cryptography and information security in Balkans (BalkanCryptSec).
8. Member, Steering Committee, International Conference on Critical Information Infrastructures Security (CRITIS).
9. Member, Steering Committee, International Conference on Emerging Security Information, Systems and Technologies (SECURWARE).
10. Member, Steering Committee, International Workshop on Attacks and Defenses for Internet-of-Things (ADIoT).
11. Member, Steering Committee, International Conference on Dependability (DEPEND).
12. Member, Scientific Board, International Workshop Series on Digital Transformation and Artificial Intelligence.
13. Member, Steering Committee, International Symposium on Emerging Information Security and Applications (EISA).
14. Member, Steering Committee, International Workshop on Trust, Privacy and Security in the Digital Society (TrustBus).
15. Member, Steering Committee, International Conference on Digital Sovereignty (ICDS).
16. Member, International Advisory Committee, 12th International Conference on Mathematics and Computing (ICMC 2026), LNMIIT, Jaipur, India, 2026.
17. Member, Technical Programme Committee, 12th International Conference on Mathematics and Computing (ICMC 2026), LNMIIT, Jaipur, India, 2026.
18. Member, Technical Programme Committee, International Workshop on Secure, Trustworthy, and Robust AI – (STRAI 2025), Ghent, Belgium, 2025.
19. Member, Technical Programme Committee, 2025 IEEE Conference on Communications and Network Security (CNS) (IEEE CNS 2025), Avignon, France, 2025.
20. Member, Technical Programme Committee, IEEE Annual Congress on Artificial Intelligence of Things (IEEE AIoT 2025), Osaka, Japan, 2025.
21. Member, Technical Programme Committee, 12th International Conference on New Technologies, Mobility & Security (NTMS 2025), Paris, France, 2025.
22. Member, Technical Programme Committee, 2025 IEEE/CIC International Conference on Communications in China (ICCC'25), Shanghai, China, 2025.
23. Member, Technical Programme Committee, CPRA: International Workshop on Cybersecurity and Privacy Risk Assessments (ARES 2025 workshop), Ghent, Belgium, 2025.
24. Member, Technical Programme Committee, 17th World Conference on Information Security Education (WISE2025), Maribor, Slovenia, 2025.
25. Member, Technical Programme Committee, 22nd International Workshop on Trust, Privacy and Security in the Digital Society (TrustBus), Toulouse, France, 2025.
26. Member, Technical Programme Committee, International Conference on Wireless Communications and Mobile Computing (IWCMC 2025), Communications and Cyber Security (CCSS), Abu Dhabi, UAE, 2025.
27. Member, Technical Programme Committee, 2025 Asia Pacific Conference on Wireless and Mobile (APWiMob), Bali, Indonesia, 2025.
28. Member, Technical Programme Committee, 20th International Conference on Critical Information Infrastructures Security (CRITIS 2025), Jönköping Sweden, 2025.
29. Member, Technical Programme Committee, Annual Privacy Forum (APF2025), Frankfurt a.M., Germany, 2025.
30. Member, Technical Programme Committee, 3rd DevSecOps Research and Opportunities Workshop, Venice, Italy, 2025.

31. Member, Technical Programme Committee, 24th International Conference on Cryptology and Network Security (CANS'25), Osaka, Japan, 2025.
32. Member, Technical Programme Committee, 21st EAI International Conference on Security and Privacy in Communication Networks (EAI SecureComm 2025), Xiangtan, China, 2025.
33. Member, Technical Programme Committee, 38th IEEE International Symposium on Computer-Based Medical Systems (CBMS) Special Track on Security and Privacy in Health Systems—Addressing Technology, Society, and Law, Madrid, Spain, 2025.
34. Member, Technical Programme Committee, The 19th International Conference on Emerging Security Information, Systems and Technologies (SECURWARE 2025), Barcelona, Spain, 2025.
35. Member, Technical Programme Committee, 20th International Conference on Systems and Networks Communications (ICSNC) 2025, Lisbon, Portugal, 2025.
36. Member, Technical Programme Committee, International Conference on Data Protection Regulations, Compliance, and Innovative Technologies (PrivInno2025), Venice, Italy, 2025.
37. Member, Technical Programme Committee, WEBIST 2025, Marbella, Spain, 2025.
38. Member, Technical Programme Committee, the 18th IADIS International Conference on Information Systems 2025 (IS 2025), Madeira Island, Portugal, 2025.
39. Member, Technical Programme Committee, 30th Nordic Conference on Secure IT Systems (NordSec 2025), Tartu, Estonia, 2025.
40. Member, Technical Programme Committee, 40th International Conference on ICT Systems Security and Privacy Protection (IFIP SEC 2025), Maribor, Slovenia, 2025.
41. Member, Technical Programme Committee, 30th European Symposium on Research in Computer Security (ESORICS 2025), Toulouse, France, 2025.

**APPENDIX XI: Extract on leadership from the EUA IEP report on the University of
the Aegean**

2.6 University Leadership

The complexity of managing this university across five islands can hardly be over-stated, and the review Team left with admiration for the way in which the Rector, professor Sokratis Katsikas, along with his team of Vice Rectors and Deans, is addressing the challenges. Leading this university requires considerable vision, energy, enthusiasm, as well as great management and negotiation skills. The Team's impression is that the university has the leadership it needs and deserves.

The Team had the opportunity to meet the Rector both in formal and informal contexts, and particularly welcomed the opportunity to observe some working meetings. It was apparent that the Rector has a vision for the development of the university as a socially responsive, dynamic and research-driven institution, and is keen to push the university in this direction by all means at his disposal. His management of university affairs is very open, and he sets a fine example in listening and engaging in dialogue with colleagues and with the wider community. Professor Katsikas also displays an acute awareness of the need to act in a pragmatic fashion, with a clear sense of what is possible. Priorities are defined in realistic rather than idealistic terms, and strategy is developed in a corresponding manner, recognising the limits of the physical and cultural environment.
